COMPETITION PLAN ATTACKED IN SUIT

American Hardwood Manufacturers Are Challenged by Government.

MEMPHIS, Tenn., February 14 (by the Associated Press).—Legality of the "open competition plan" operated in conjunction with the statistical department of American Hardwood Manufacturers' Association, was challenged in a bill in equity filed in federal district court here today at the direction of A. Mitchell Palmer, Attorney General, and was defended in a statement issued by F. E. Gadd, manager of statistics, acting as spokesman for the executive committee of the association.

The bill asked an injunction to restrain Mr. Gadd and 332 lumber concerns and individuals in sixteen states from continuing practices alleged to have been involved in the "open competition" plan which, it was charged, constitute a conspiracy in restraint of trade in violation of the Sherman law. The application for a preliminary injunction will be heard March 8. It was announced that Judge F. E. Ames, assistant to the Attorney General, and Henry S. Mitchell, a special assistant, under whose supervision the bill was drawn, will attend the hearing.

Government's Charges.

In effect the government's complaint charges that by means of circulars and pamphlets and through oral agreement among firms and individuals participating in the so-called plan, prices have been maintained and competition among the defendant companies eliminated.

Mr. Gadd, in his statement, denies that there has been any effort to control prices and outlines the purpose of the "open competition" plan as solely to distribute statistical and other information in connection with the hardwood lumber industry.

"We believe that at no time have we transgressed the law," Mr. Gadd said in his statement, "and we welcome the government's most searching investigation."

"We have no thought to control production or price fixation. All that we are doing is to publish to our members the true market facts."

"There never was a greater error than that the open competition plan of the American Hardwood Manufacturers' Association could control the price or any relation to the fixing of a price."

Likened to Crop Reports.

Mr. Gadd likened the reports issued by his bureau to government crop reports, and declared the method of operation was explained in detail some months ago to the Federal Trade Commission.

The government in its bill asks that the issuance of further production, stock and sales reports under the so-called plan be enjoined and that members listed as defendants to the suit be restrained from "making any further oral agreements" at group meetings of lumbermen which, it was stated, have been scheduled to be held in the near future at Cincinnati, Memphis, New Orleans and Little Rock, "or at any other time or place to eliminate such competition as may still persist among them."

GOT "PURE VELVET"

MONEY IN CAMPAIGN

Defendant in Newberry Case Quoted by Grand Juror.

Grilling by Richter.

GRAND RAPIDS, Mich., February 14 (by the Associated Press).—The question as to whether work for the committee which managed the 1918 senatorial campaign of Truman H. Newberry was a paying proposition was again emphasized by the prosecution today at the elections conspiracy trial in United States district court. Out of several bits of testimony bearing on this subject, there stood out the following statement, attributed by a grand juror to one of the defendants, Charles V. Deland, a state senator from Jackson:

"I got in all \$10,000, and I consider at least half of that pure velvet."

Mrs. Newberry Ill in Hospital.

The trial may have to continue next week without the presence of the principal witness, Senator Newberry, who was called to Detroit today by a telegram which stated that his wife was ill in a hospital there.

Claire R. Higbee, clerk of the grand jury, today acknowledged that he had little or no recollection of one defendant's grand jury testimony except what was recorded in his notes, and Mr. Nichols played on this theme at length, winding up by showing the trial jury that Higbee made two brief pages of notes while defendant was before the grand jury for testimony minutes and perhaps half an hour."

Court Orders Investigation.

W. H. Richter, worker in a local furniture factory, testified so much in variance with the version of his grand jury information presented by Frank C. Bailey, assistant attorney general, that Judge Clarence W. Sessions ordered an investigation. It was learned later that the investigation probably will devolve upon Myron H. Walker, United States district attorney.

Richter's attitude drew from Mr. Bailey the most severe grilling that the prosecution has yet accorded a witness. The assistant attorney general managed to bring out that Richter had talked with Welch about a state job for himself while the senatorial campaign was on.

Keep the Flu Away Build Up Your System by Taking CHASCO VIN AFFLECK'S DRUG STORE 14th & U. 15th & F.

Yellow Mustard for Rheumatism

A good hot mustard plaster or poultice is pretty sure to overcome most rheumatic pains and even sciatica and gout, but it's a messy affair and generally blisters.

Heat is absolutely necessary if you want permanent relief. Reg's Mustard, made of true yellow mustard, with pain-relieving ingredients added, is just as hot, is clean and more effective than the old-fashioned poultice or plaster, and cannot blister.

Besides rheumatic pains and swellings, Reg's Mustard is specially effective for lumbago, backache, neuritis, pleurisy, bronchitis, sore throat, chest colds and all aches and pains, because heat causes pain to go and the heat is supplied by mail. 50 and 25 cents at druggists or by mail. E. C. Wells & Co., La Jolla, N. Y.

MUSTARDINE

All Metal Sanitary Carpet Sweeper

\$1.69

Ten times more efficient than a broom. More sanitary, too.
